

HIGH-PRIORITY STUDY PACK

Top 30 Alberta Class 7 *Study Questions*

30 high-priority Alberta Class 7 practice questions covering the essential rules, road signs, and situations every learner should understand before the knowledge test.

MADE ESPECIALLY FOR

Ahmed Sami Suliman

17 YEARS OLD • ALBERTA CLASS 7 PREPARATION

How to Use This Study Pack

STUDY METHODOLOGY

This study guide is designed to reinforce the highest-priority rules of the road from the official *Driver's Guide to Operation, Safety and Licensing: Cars and Light Trucks*. Use this pack to self-test core concepts, memorize key distances, and master crucial right-of-way rules.

The Alberta Knowledge Test

- The official registry test consists of **30 multiple-choice questions**.
- You must answer at least **25 questions correctly (83.3%)** to pass.
- The real registry computer test has **no countdown timer**.
- You can take the official knowledge test once per calendar day.

Effective Study Strategy

- Read the question and cover the answers with your hand.
- Recall the rule before checking the highlighted correct answer.
- Read the **WHY** explanation to understand the legal reasoning.
- Memorize the 💡 **STUDY TIP** as a mental checklist on test day.

IMPORTANT LEGAL NOTICE: NEXORA DR TEST is an independent educational practice tool and is not affiliated with, endorsed by, or operated by the Government of Alberta. Questions in this study pack are original educational practice questions based on Alberta driving rules and are not actual or leaked government examination questions. Always consult the current Alberta Driver's Guide and Alberta.ca for official licensing information.

QUESTION 01 OF 30

SIGNS & SIGNALS

What does this octagonal red road sign indicate to a driver?

A. Come to a complete stop before the stop line or crosswalk and proceed only when safe ✓

B. Slow down and yield to oncoming traffic without stopping completely

C. Stop only if other vehicles or pedestrians are present

D. Reduce speed to 30 km/h

WHY: An eight-sided octagonal red sign always means STOP. You must come to a complete halt before the stop line, crosswalk, or intersection.

💡 STUDY TIP: Red octagonal sign = complete halt before the line or crosswalk. Rolling stops are illegal.

QUESTION 02 OF 30

SIGNS & SIGNALS

What does this triangular red and white road sign require you to do?

A. Slow down and yield right-of-way to all vehicles and pedestrians, stopping if necessary ✓

B. Come to an absolute complete stop at all times

C. Maintain your current speed because you have the right-of-way

D. Speed up to merge before other vehicles

WHY: An inverted triangle sign means YIELD. You must slow down and give the right-of-way to other traffic.

STUDY TIP: Inverted red/white triangle = slow down and give right-of-way. Stop if other traffic is approaching.

Alberta Driver's Guide – Yield Signs

QUESTION 03 OF 30

SIGNS & SIGNALS

What does this fluorescent yellow-green pentagon-shaped sign indicate?

A. You are approaching a school area or school crosswalk; watch for children ✓

B. Playground zone ahead with a 20 km/h limit

C. Pedestrian mall where cars are strictly prohibited

D. Daycare parking lot entrance

WHY: A pentagon-shaped fluorescent yellow-green sign indicates a school area or school crosswalk.

STUDY TIP: Fluorescent yellow-green pentagon = school area or crosswalk ahead. Watch closely for children.

Alberta Driver's Guide – School Zones

QUESTION 04 OF 30

SIGNS & SIGNALS

What does this square white sign with a solid red circle and white horizontal bar mean?

A. Do not enter; vehicles must not proceed past this sign into the oncoming lane or one-way street ✓

B. Stop sign for heavy trucks only

C. Hospital quiet zone

D. Railway crossing without signal lights

WHY: The Do Not Enter sign prohibits vehicles from entering an opposing lane or one-way roadway.

STUDY TIP: Square with red circle & white bar = do not enter opposing traffic lane or one-way street.

Alberta Driver's Guide – Regulatory Signs

QUESTION 05 OF 30

RIGHT-OF-WAY & INTERSECTIONS

In this uncontrolled intersection scenario, Vehicle A (blue sedan from south) and Vehicle B (red SUV from east) arrive at the intersection line at the exact same time. Which vehicle has the right-of-way?

A. Vehicle B (red SUV) because it is on the right of Vehicle A ✓

B. Vehicle A (blue sedan) because it arrived from the south

C. Whichever vehicle is travelling at a higher speed

D. The larger vehicle always has right-of-way

WHY: At an uncontrolled intersection where two vehicles arrive simultaneously, the driver on the left (Vehicle A) must yield the right-of-way to the driver on the right (Vehicle B).

STUDY TIP: At an uncontrolled intersection, the vehicle on the LEFT must always yield to the vehicle on the RIGHT.

Alberta Driver's Guide – Uncontrolled Intersections

At this four-way stop intersection, Vehicle A (blue sedan) arrived first and came to a complete stop. Vehicle B (silver sedan) is approaching and stopping second. Who proceeds first?

A. Vehicle A proceeds first because it was the first to stop completely ✓

B. Vehicle B proceeds first because it is to the right

C. Both vehicles may proceed at the same time

D. Whichever vehicle flashes its headlights first

WHY: At a four-way stop, courtesy and the law dictate that the first vehicle to come to a complete stop has the right-of-way to proceed first once the intersection is clear.

💡 STUDY TIP: First vehicle to come to a complete stop has priority. If simultaneous, yield to the vehicle on the right.

QUESTION 07 OF 30

RIGHT-OF-WAY & INTERSECTIONS

You are driving Vehicle A (blue sedan) waiting to turn left at a solid green traffic light. An oncoming vehicle (yellow hatchback) is proceeding straight through. What must you do?

A. Yield and wait with wheels straight until oncoming traffic clears, then complete your turn ✓

B. Turn quickly in front of the oncoming vehicle before it enters the intersection

C. Honk to warn the oncoming vehicle and proceed immediately

D. Back up out of the intersection until the light turns red

WHY: When turning left on a solid green light, you must yield to oncoming traffic and pedestrians. Keep your front wheels straight so you are not pushed into oncoming traffic if rear-ended.

💡 STUDY TIP: Keep wheels straight while waiting to turn left so a rear impact won't push you into oncoming traffic.

Alberta Driver's Guide – Left Turns at Green Lights

QUESTION 08 OF 30

RIGHT-OF-WAY & INTERSECTIONS

When arriving at a T-intersection where your road terminates, who must you yield to?

A. All traffic on the through street and any pedestrians crossing ✓

B. Only vehicles approaching from your left

C. Traffic turning left only

D. You have right-of-way if you arrived first

WHY: At a T-intersection, the driver on the terminating road must yield to all cross traffic on the through street.

💡 STUDY TIP: The driver on the terminating road must yield to all through traffic and crossing pedestrians.

Alberta Driver's Guide – T-Intersections

When driving out of a private driveway, parking lot, or alley onto a public roadway, what must you do?

A. Stop completely before the sidewalk or roadway edge and yield to all pedestrians, cyclists, and vehicular traffic ✓

B. Honk your horn and drive forward slowly without stopping

C. You have the right-of-way over vehicles on the roadway

D. Yield only to vehicles traveling in the lane closest to you

WHY: When entering from a driveway or alley, stop completely before crossing the sidewalk and yield to all traffic and pedestrians.

💡 STUDY TIP: Stop completely before crossing the sidewalk when leaving a private driveway or alley.

QUESTION 10 OF 30

SPEED LIMITS & ZONES

Unless otherwise posted, what is the default maximum legal speed limit on urban city streets in Alberta?

A. 50 km/h ✓

B. 60 km/h

C. 40 km/h

D. 70 km/h

WHY: The provincial maximum speed limit on roadways within an urban area is 50 km/h unless posted signs indicate otherwise.

STUDY TIP: Default urban city limit is 50 km/h unless signs indicate otherwise.

Alberta Driver's Guide – Urban Speed Limit Default

QUESTION 11 OF 30

SPEED LIMITS & ZONES

Unless otherwise posted, what is the default maximum speed limit on a primary provincial highway outside urban areas in Alberta?

A. 100 km/h ✓

B. 110 km/h

C. 90 km/h

D. 80 km/h

WHY: The provincial maximum speed limit on primary paved highways outside urban areas is 100 km/h unless otherwise posted.

STUDY TIP: Default speed limit on primary provincial rural highways is 100 km/h unless posted otherwise.

Alberta Driver's Guide – Rural Primary Highway Default

QUESTION 12 OF 30

SPEED LIMITS & ZONES

What is the maximum legal speed limit when driving through an active school zone in Alberta?

A. 30 km/h ✓

B. 20 km/h

C. 40 km/h

D. 50 km/h

WHY: The maximum legal speed in a school zone is 30 km/h during active hours.

STUDY TIP: School zone speed limit is 30 km/h during statutory hours. Passing any moving vehicle is strictly prohibited.

Alberta Driver's Guide – School Zone Statutory Speed

QUESTION 13 OF 30

PARKING REGULATIONS

When parking a vehicle facing UPHILL on a street with a concrete curb as shown, how should you orient your front wheels?

A. Turn front wheels to the LEFT (away from the curb) and allow the vehicle to roll back gently until the tire touches the curb ✓

B. Turn front wheels to the RIGHT (toward the curb)

C. Keep front wheels straight with the curb

D. Turn front wheels to the right and mount the sidewalk

WHY: When parking uphill with a curb, turn wheels to the LEFT (away from the curb). If the brakes fail, the back of the front tire will roll against the curb, preventing the car from rolling downhill into traffic.

💡 STUDY TIP: Uphill WITH curb: Turn wheels LEFT (away from curb). Roll back gently until the tire touches the curb.

Alberta Driver's Guide – Uphill Parking With Curb

QUESTION 14 OF 30

PARKING REGULATIONS

How far must you park from a fire hydrant in Alberta?

A. At least 5 metres ✓

B. At least 1.5 metres

C. At least 3 metres

D. At least 10 metres

WHY: You cannot park within 5 metres of a fire hydrant.

💡 STUDY TIP: Never park within 5 metres of a fire hydrant.

Alberta Driver's Guide – Distance from Fire Hydrant

When parallel parked alongside a curb on a two-way street, what is the maximum legal distance your tires can be from the curb?

A. 500 mm (50 cm) ✓

B. 1000 mm (1 metre)

C. 200 mm (20 cm)

D. 750 mm (75 cm)

WHY: When parallel parked, your curbside wheels must be within 500 mm (50 cm) of the curb.

💡 STUDY TIP: When parallel parked, your curbside wheels must be within 500 mm (50 cm) of the curb.

QUESTION 16 OF 30

LANE USE & TURNING

When entering a two-lane roundabout in Alberta as shown, which lane should you choose if you plan to take the first exit (turning right)?

A. The right (outer) lane ✓

B. The left (inner) lane only

C. Either lane is permitted for an immediate right turn

D. The centre median lane

WHY: In a multi-lane roundabout or traffic circle in Alberta, drivers intending to take the first exit (turning right) must enter in the right (outer) lane. The left (inner) lane is for continuing straight, turning left, or making a U-turn.

💡 **STUDY TIP:** Right lane = 1st exit (right turn). Left lane = straight, left turn, or full U-turn.

Alberta Driver's Guide – Roundabout Lane Positioning

QUESTION 17 OF 30

LANE USE & TURNING

What is the recommended minimum distance before an intersection to signal your intention to turn when driving in an urban city area?

A. At least 30 metres before the turn ✓

B. At least 5 metres before the turn

C. At least 100 metres before the turn

D. Only when you reach the crosswalk

WHY: In urban areas, signal at least 30 metres before reaching the intersection.

💡 **STUDY TIP:** Signal your turn at least 30 metres in advance in urban areas (100m on highways).

Alberta Driver's Guide – Signaling Distance in Urban Areas

What does a solid yellow line on your side of the centre of a two-lane roadway indicate?

A. Passing is prohibited in your direction of travel ✓

B. Passing is permitted with caution

C. One-way traffic only

D. Lane for bicycles only

WHY: A solid yellow line on your side indicates passing is prohibited.

💡 STUDY TIP: Solid yellow line on your side = passing is prohibited.

A school bus is stopped on an undivided two-lane highway with alternating red lights flashing and stop arm extended. What are your legal obligations?

A. Traffic approaching from BOTH directions must stop at least 20 metres from the bus and remain stopped until lights stop flashing ✓

B. Only vehicles following directly behind the bus must stop

C. Slow down to 20 km/h and pass with caution

D. Vehicles in the opposing lane may continue at the posted speed limit

WHY: On an undivided road or highway, vehicles approaching from BOTH directions must come to a complete stop at least 20 metres from a school bus with alternating flashing red lights.

STUDY TIP: On undivided roads, traffic in BOTH directions must stop at least 20 metres from a school bus with flashing red lights.

When passing a stopped emergency vehicle, tow truck, or highway maintenance vehicle with flashing lights on a highway with a speed limit of 100 km/h, what is the maximum legal speed in the adjacent lane?

A. 60 km/h (or the posted speed limit if it is lower than 60 km/h) ✓

B. 80 km/h

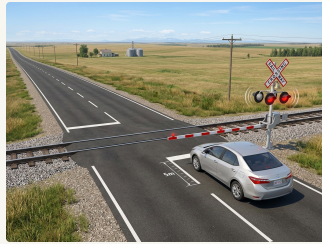

C. 50 km/h

D. There is no speed reduction required if you stay in your lane

WHY: Under Alberta law, drivers must reduce speed to 60 km/h (or the posted speed limit if lower) when passing stopped emergency vehicles, tow trucks, and roadside maintenance vehicles with flashing lights in the adjacent lane.

💡 STUDY TIP: Slow to 60 km/h (or posted limit if lower) when passing stopped emergency vehicles with flashing lights in an adjacent lane.

When railway crossing warning signals are flashing red and a gate arm is lowered, what is the minimum legal distance you must stop before the nearest rail track in Alberta?

A. At least 5 metres from the nearest rail track (and no further than 15 metres) ✓

B. At least 1 metre from the rail track

C. At least 25 metres from the track

D. Directly touching the gate arm

WHY: Under Alberta traffic laws, when stopping for an approaching train or railway signals, you must stop your vehicle no closer than 5 metres and no further than 15 metres from the nearest rail.

💡 STUDY TIP: Stop at least 5 metres (and no more than 15 metres) from the nearest rail track when signals flash.

QUESTION 22 OF 30

DEFENSIVE DRIVING

Under normal dry road and weather conditions, what is the recommended minimum following distance behind the vehicle ahead?

A. At least 2 seconds ✓

B. At least 1 second

C. At least 5 seconds

D. Exactly 1 car length for every 50 km/h

WHY: The 2-second rule is the minimum safe following distance under ideal conditions.

STUDY TIP: Maintain at least a 2-second following distance under normal conditions. Increase to 4+ seconds in bad weather.

Alberta Driver's Guide – Two-Second Rule

QUESTION 23 OF 30

DEFENSIVE DRIVING

Why are shoulder checks (glancing over your shoulder) essential before changing lanes or turning?

A. Rearview and side mirrors have blind spot areas where nearby vehicles, motorcycles, and cyclists cannot be seen ✓

B. Shoulder checks are only necessary when reversing

C. Shoulder checks replace the need to use turn signals

D. They are required only during driving examinations

WHY: Mirrors cannot display vehicles in your blind spots. Always perform a shoulder check.

STUDY TIP: Mirrors have blind spots. Always perform a physical shoulder check before every lane change or merge.

Alberta Driver's Guide – Blind Spot Shoulder Checks

QUESTION 24 OF 30

CLASS 7 GDL LICENSING

What is the minimum age required to apply for an Alberta Class 7 Learner's Licence?

A. 14 years of age ✓

B. 16 years of age

C. 15 years of age

D. 18 years of age

WHY: In Alberta, you must be at least 14 years of age to apply for a Class 7 learner's licence (with parental/guardian consent if under 18).

STUDY TIP: Minimum age for Alberta Class 7 Learner's Licence is 14 years old (parental consent under 18).

Alberta Driver's Guide – Class 7 Minimum Age

QUESTION 25 OF 30

CLASS 7 GDL LICENSING

During which hours are Alberta Class 7 learner drivers strictly prohibited from driving?

A. Between midnight (12:00 AM) and 5:00 AM ✓

B. Between 10:00 PM and 6:00 AM

C. Between 11:00 PM and 7:00 AM

D. Between 9:00 PM and sunrise

WHY: Class 7 learner licence holders cannot drive between 12:00 midnight and 5:00 AM under any circumstances.

STUDY TIP: Class 7 learner drivers cannot drive between midnight (12:00 AM) and 5:00 AM.

Alberta Driver's Guide – Class 7 Night Driving Curfew

QUESTION 26 OF 30

CLASS 7 GDL LICENSING

How many demerit points will result in a licence suspension for an Alberta Class 7 GDL learner driver?

A. 8 demerit points ✓

B. 15 demerit points

C. 12 demerit points

D. 4 demerit points

WHY: A GDL driver will be suspended upon accumulating 8 or more demerit points within a 2-year period (compared to 15 points for fully licensed non-GDL drivers).

STUDY TIP: Class 7 GDL drivers are suspended upon accumulating 8 demerit points (compared to 15 for full Class 5).

Alberta Driver's Guide – Class 7 Demerit Point Suspension

QUESTION 27 OF 30

DRIVER SAFETY & LAWS

What is the legal blood alcohol concentration (BAC) limit for a Class 7 learner driver in Alberta?

A. Zero percent (0.00% BAC) — zero tolerance ✓

B. 0.05% BAC

C. 0.08% BAC

D. 0.02% BAC

WHY: Alberta has a zero-tolerance law for all GDL drivers. Your blood alcohol concentration must be 0.00% with no illegal drugs in your system.

STUDY TIP: Class 7 drivers have a strict 0.00% blood alcohol tolerance. Zero alcohol, zero cannabis, zero illegal drugs.

Alberta Driver's Guide – Class 7 Blood Alcohol Tolerance

QUESTION 28 OF 30

DRIVER SAFETY & LAWS

What are the provincial penalties in Alberta for a convicted distracted driving offence (e.g. texting or using a handheld phone while driving)?

A. A \$300 fine and 3 demerit points ✓

B. A \$150 fine and 1 demerit point

C. A \$500 fine and 5 demerit points

D. A warning letter on the first offence

WHY: Under Alberta's distracted driving legislation, the penalty is a \$300 fine and 3 demerit points.

💡 **STUDY TIP:** Distracted driving in Alberta carries a \$300 fine and 3 demerit points.

Alberta Driver's Guide – Distracted Driving Penalties

QUESTION 29 OF 30

WINTER & HAZARDS

Why do bridge decks and highway overpasses freeze and develop black ice before the rest of the roadway in winter?

A. Cold air circulates both above and below the bridge deck, causing it to lose heat faster than ground-insulated pavement ✓

B. Bridge decks are made of metal which attracts moisture faster

C. Overpasses are at a higher altitude where the air pressure is lower

D. Highway maintenance crews do not apply salt or sand to bridges

WHY: Bridge decks freeze much sooner than normal roadways because cold winter air circulates both above and beneath the bridge structure, cooling it from all sides without the insulating warmth of the earth below.

💡 **STUDY TIP:** Bridges freeze first because cold winter air circulates both above and below the elevated deck.

Alberta Driver's Guide – Black Ice on Bridges

If your rear wheels lose traction and your vehicle begins to fishtail (skid) on an icy road, what is the correct corrective action?

- A. Take your foot off the accelerator, do not brake hard, and steer smoothly in the direction you want the front of the vehicle to go ✓
- B. Slam on the brakes immediately and pull the handbrake
- C. Accelerate rapidly to overpower the skid
- D. Steer sharply in the opposite direction of the skid

WHY: In a skid, ease off the accelerator and steer gently in the direction you want the front of the vehicle to travel.

STUDY TIP: In a skid: Ease off the accelerator (do not slam brakes) and steer gently in the direction you want the vehicle to go.

Alberta Driver's Guide – Skid Recovery on Ice

Ahmed's Quick Reference & Exam Day Tips

HIGH-YIELD REVISION

TOPIC	KEY RULE / METRIC TO REMEMBER
Uncontrolled Intersections	Vehicle on the LEFT must yield to the vehicle on the RIGHT.
Four-Way Stop	First vehicle to stop completely proceeds first. Simultaneous arrival yields to the RIGHT.
School Zones	30 km/h during active hours. Passing any moving vehicle is strictly prohibited.
School Bus Flashing Red	Traffic in BOTH directions on undivided roads must stop at least 20 metres away.
Passing Emergency Vehicles	Slow to 60 km/h (or posted limit if lower) when passing stopped emergency vehicles with flashing lights.
Railway Crossings	Stop between 5 metres and 15 metres from the nearest rail track.
Fire Hydrant Parking	Do not park within 5 metres of a fire hydrant.
Uphill Parking With Curb	Turn wheels LEFT (away from curb) and roll back gently to touch the curb.
Class 7 Demerit Suspension	Suspended upon reaching 8 demerit points (zero alcohol 0.00% tolerance).
Following Distance	At least 2 seconds under ideal conditions; 4+ seconds in snow, rain, or fog.

FINAL BENCHMARK TARGET

Score 25+ / 30 Consistently

Aim to achieve 25/30 or higher across 3 consecutive practice exams in the NEXORA DR TEST simulation before booking your official Class 7 knowledge test at the registry.
